BOXtrack

Luxurious, elegant and durable

Sturdy anodized aluminum in silver, brushed nickel or brushed black

Optional: Soft-Stops, distance profile

For wood and frameless glass doors

Made in Germany

falkenstein-doors.com/boxtrack

The BOXtrack is the perfect sliding door system for those who want the best of the best in just one set.

Its beautiful silver, brushed nickel or brushed black anodized finishes give it a luxurious look that complements any decor. Tested for ADA-compliant operating forces with doors up to 180 lbs.*

This premium system features sturdy, smooth running and quiet ball bearing slides, and if you are looking for even more convenience, you can also install the Soft-Stop mechanism, which ensures that the door panel opens and closes in a smooth and controlled manner.

This German-manufactured system is specifically designed for sturdy, heavy-duty glass or wood doors. Its hardware is made of aluminum and is capable of supporting a door panel weighing up to 270 lbs – even with Soft-Close and Soft-Open.

*Final ADA compliance depends on the complete door installation, accessories, and local site conditions, including proper level and plumb installation.

Optional ¾" (20 mm) distance profile
for seamless integration with existing door casings or baseboards.

Soft-Stop in both directions
This optional premium accessory ensures a gentle, smooth opening and closing of doors up to 270 lbs.
