

SMART track

Customizable in
every detail

For wood and glass doors
Up to 176 lb (80 kg)

Optional Soft-close, push-to-open
or synchro drive

Aluminum valances to clip on the
track profile

The SMARTtrack pocket door track simplifies installation with its user-friendly features.

Versatile and adaptable, it easily converts to a wall-mounted system, catering to different spatial needs. Maintenance is streamlined with a milled inspection opening for easy access. Compatible with a range of door dimensions, SMARTtrack defines flexibility in space management.

Features

- Available for up to 176 lb (80 kg) wood and glass doors
- Optional Soft-close, push-to-open or synchro drive
- Track connector for bi-parting sliding doors
- Optional recessed hardware for wood doors and glass clamps with valance for more clearance height
- Optional wall mounting profile
- Aluminium valances to clip on the track profile

Advantages

- Modern design
- Quick and easy door installation and adjustment after track/wall installation
- Exchange components without opening the finished wall
- Due to the wheel sets there is only minimal friction and smooth movement is guaranteed
- The SMARTtrack can be customized in every detail to individual needs. Even when installed!
- Outstanding sliding properties

Recessed wood door mount

- Once routed into the door, it enables you to install or remove the door while the wall is closed
- Up to 176 lb (80 kg) door weight
- Easy leveling of the door

Synchro for wood doors

- Both doors can open and close simultaneously using a cable
- For two wood doors up to 176 lb (80 kg) per door panel
- Comfortable operation with one hand
