THE MODERN BARN DOOR TRACK

BOXtrack+BOXtracklite

This **premium system** features sturdy, smooth running and quiet ball bearing slides, and if you are looking for even more convenience, you can also install the Soft-Stop mechanism, which ensures that the door panel opens and closes in a smooth and controlled manner.

This **German-manufactured** system is specifically designed for sturdy, heavy-duty glass or wood doors. Its hardware is made of aluminum and is capable of supporting a door panel weighing up to 270 lbs - even with Soft-Close and Soft-Open.

Optional ¾" (20 mm)* distance profile
for seamless integration with existing door casings or baseboards.

Soft-Stop in both directions

This optional premium accessory ensures a gentle, smooth opening and closing of doors up to 270 lbs.
