VARIO pocket

Aluminum pocket door framing kit for wood and glass door panels

Made in Germany

falkenstein-doors.com/variopocket

Advantages of the VARIOpocket

The VARIOpocket is a testament to German craftsmanship at its finest. Our products are manufactured in Germany and in stock in the US, ensuring they're ready for quick dispatch and ideal for efficient storage, thanks to compact packaging and unmatched adjustability.

The Track-in-Track remote adjustment mechanism allows for pocket side door stop adjustments without access to the pocket.

Maintain with Ease

Our pocket door system with a removable valance (only with the Finish-Up Profiles) and an inspection opening provides easy access and maintenance for hassle-free use. It is designed with practicality and convenience in mind.

Stopper Adjustability

The stopper positions (and optional Soft-Stop or Push-To-Open) can be adjusted even if the wall is closed without the need to open the drywall again.

One Size Fits All Doors

With our pocket door kit, you can accommodate all door sizes up to 48" width and 96" height.

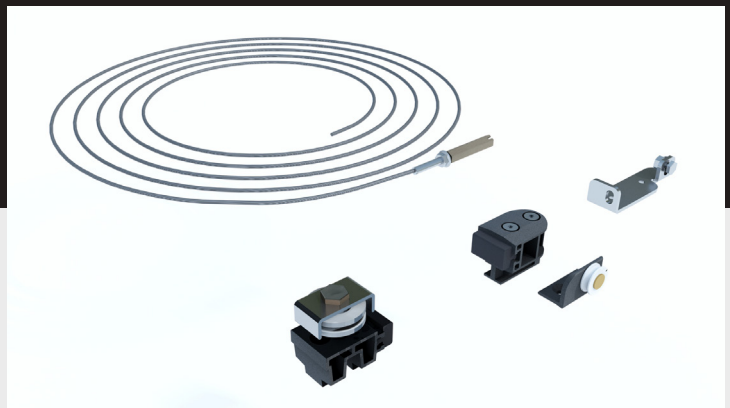

This saves storage space, reduces inventory and offers flexible height adjustment up to 96".

ADA Compliance

Our pocket systems accommodate door sizes and configurations suitable for ADA-compliant installations and are tested for ADA-compliant operating forces with doors up to 180 lbs.*

*Final ADA compliance depends on the complete door installation, accessories used and local site conditions, including proper level and plumb installation.

Push-Two-Soft

- Damper with Soft-Close/Soft-Open + Push-To-Open in one device
- Up to 180 lbs door weight
- For doors starting at 24"

Synchro for wood doors

- Both doors can open and close simultaneously using a cable
- For two wood doors up to 180 lbs per door panel
- Comfortable operation with one hand
